Ergonomic memory foam travel pillow with neck support, chin rest, and adjustable closure

SKU: TETRAVPILLMF

Supports the neck and chin, reduces cervical tension, and improves comfort during travel.

ERGONOMIC TRAVEL PILLOW FOR COMFORTABLE REST

The **ergonomic travel pillow from the Go First Collection** is designed to provide comfortable support for the neck and head during travel. Thanks to its **ergonomic shape with chin support**, it helps maintain a more stable position and reduces neck tension when resting while seated. Ideal for **airplane, train, and bus journeys**, it accompanies every moment of relaxation, making even the longest transfers more enjoyable.

MEMORY FOAM AND NECK SUPPORT TO REDUCE FATIGUE

The **memory foam padding** adapts to the shape of the neck and head, offering stable and comfortable support. The **ergonomic wrap-around design** supports the chin and helps limit involuntary head movements during rest. This helps reduce neck tension and promotes a more natural position when sleeping while seated. The pillow is particularly practical during long-haul flights or travel breaks, when adequate support can improve comfort.

ADJUSTABLE CLOSURE AND STRETCH FABRIC FOR CUSTOMISED COMFORT

The **SBS Go First neck pillow** features an **adjustable closure** that allows you to tailor the support to your needs. Simply place it around your neck and adjust the closure for a stable and comfortable fit. The cover is made from a blend of **70% nylon, 15% spandex, and 15% polyester**, materials that provide stretch and practicality during use. The wrap-around structure helps keep the neck in position, offering a versatile solution for resting during travel, transfers, and relaxation moments.

WHAT SETS IT APART

- Ergonomic travel pillow
- Memory foam padding
- Neck and chin support
- Helps reduce neck tension
- Adjustable closure for customised support
- Wrap-around design for comfortable travel
