

Silent - TWS Noise Cancelling Wireless EarPhones

SKU: TEEARANCTWSBEQBTW

True Wireless Stereo Earphones with ANC technology, 500 mAh charging base, IPX4 certified for sweat-resistance

CHOOSE THE PERFECT SOUND

TWS Silent wireless earphones are the perfect accessories for anyone looking for a clean sound and who leads an active life. Their **ANC (Active Noise Cancelling)** technology ensures that ambient noise is eliminated guaranteeing a crisp, clear, uncontaminated sound. The base serves as both a case and a charger.

CLEAR, CLEAN SOUND

These wireless earphones allow you to listen to music, answer or make calls without annoying noises interfering with phone calls or listening to music. ANC technology reduces external noise by up to 25 dB, allowing you to obtain a sound characterised by deep bass and crystal clear highs: their **clean sound** provides an intoxicating audio experience.

They are perfect therefore, for anyone who often finds himself in noisy locations and who wants to **hear the speaker's voice clearly**, or when they want to **listen to music without interference**.

With ANC mode active, when fully charged, the earphones provide an autonomy of **about 5½ hours**.

PERFECT FOR MANY DEVICES

TWS earphones can be associated with many different types of device. They are perfect for **Android smartphones** like Samsung and Huawei or **iPhones** with an iOS operating system. You can also take advantage of their potential with **tablets and laptops** to listen and interact during webinars, video conferences or tutorials.

PRACTICALITY AND COMFORT

Extracted from their base, the earphones will turn on and connect immediately without cables thanks to **TWS (True Wireless Stereo)** technology. To turn them off, simply place them inside the case.

In the package, you will find 4 silicone tips of different sizes to choose the most comfortable solution. Silent are **IPX4 certified: they are**

sweat resistant and are ideal for anyone who walks in town or who wants to enjoy a long walk in the country.

ENERGY AND SECURITY

The 500 mAh base included in the package has two earphone housings. In the packaging you will find a USB - Micro USB cable to power the case.

The fully charged base can provide power to the Silent **for about 5 recharges**: this means you will have about 20 hours of music listening.

CHARACTERISTICS

Wireless V5.0

ANC (Active Noise Cancelling) Technology
