

## 10W wireless power bank

SKU: TEBB10000WIR10WLCDK

### 10000 mAh power bank with wireless charging, Micro USB input, Type-C PD input/output, dual 2.1A USB output, Dual Charge, Intelligent Charge

#### CHOOSE THE CHARGE FOR YOU

With the **10000 mAh power bank**, you can choose your preferred charging mode. Place the smartphone on the charger and power it **wirelessly** or power multiple devices simultaneously via the **two USB outputs and the Type-C port**.

**Lightweight and compact**, it's a useful ally in an emergency. Thanks to the **LCD display**, you can always keep an eye on the percentage of power in the power bank.

#### WIRELESS CHARGING

The power bank enables you to power a smartphone enabled for this type of charging just by placing it within a distance of **6mm or less**.

For wireless charging you need to have a device that's compatible with **Qi technology**, enabling it to receive the correct power delivery wirelessly.

#### CHARGING VIA USB AND TYPE-C

To charge a tablet or smartphone that does not support the Qi standard, you can do this using cables that plug into the USB and Type-C ports.

**Intelligent Charge** technology features **dual 2.1A USB output**. This system regulates the maximum power absorbed by your devices so that they are charged quickly and safely, without overcharging or overheating. In just 30 minutes the power level of your device will already reach 50%

The Type-C port can charge a smartphone or tablet. This port can also be used to supply power to the power bank itself. Thanks to PD (**Power Delivery**) technology, smartphone and tablet models compatible with this charging standard can be charged with up to 18W of power, guaranteeing ultra-fast charging: in 30 minutes, the percentage of power in your device will already reach **70%**.

## MULTICHARGING AND SAFETY

The 10W power bank is capable of charging as many as **three devices simultaneously**, thanks to the two USB outputs and the Type-C port.

Thanks to **Dual Charge** technology, you can power the power bank via the Type-C or Micro USB ports while it's charging your devices.

The power bank can supply power in complete safety and wirelessly even to iPhones that need 7.5W; **ADS (Automatic Detection System) technology** actually enables the power bank to recognise the power requirements of the device in order to prevent it from overheating. Thanks to this system, you can charge your iPhone XS, XR and XS Max without them dangerously overcharging.

## FEATURES:

- 10W wireless charging
- 10,000 mAh capacity
- Dual Charge
- Intelligent Charge
- Power Delivery 18W
- ADS (Automatic Detection System) Technology
- LCD display
- Dual 2.1A USB output for charging smartphones or tablets
- 1 Type-C port: input for charging power banks, output for charging smartphones or tablets
- 1 Micro USB input
- USB - Micro USB charging cable included
- Charge level of device after 30 minutes with 2.1A USB output: 50%\*
- Charge level of device after 30 minutes with Type-C PD18W output: 70%\*
- Lithium polymer battery
- Transportable by air

\* Charging times are approximate and depend on the battery capacity of the device being charged.

10W wireless power bank  
SKU: TEBB10000WIR10WLCDK

## Technical data

Recharging cable: USB - Micro USB Cable  
Input: 5V - 2A Micro USB, 5V - 2A Type C  
Output: 12/24V 2.1 A, 5V - 2.1A USB  
Battery: Lithium polymer battery  
Technology: Intelligent Charge, Wireless Charge  
Color: black  
EAN: 8018417272967  
SKU: TEBB10000WIR10WLCDK  
Weight: 195 g

## Logistics data

Depth Pack: 110 mm  
Width Pack: 40 mm  
Depth Inner: 210 mm  
Height Pack: 200 mm  
Weight Pack: 302 g  
Width Inner: 120 mm  
Amount Inner: 2  
Depth Master: 440 mm  
Height Inner: 100 mm  
Weight Inner: 900 g  
Width Master: 330 mm  
Amount Master: 24  
Height Master: 210 mm
