

USB 2.0 Aramid Fibre Reflective Cable - Micro USB

SKU: TECABLEUNREMIC2RB

Resistant Aramid Fibre Charging and Data Transfer Cable with USB 2.0 and Micro USB Connectors, 2m, red-blue. Tested under 50,000-bends stress conditions.

THE RIGHT CHOICE FOR ANY SITUATION

The Unbreakable Collection's Aramid Fibre USB 2.0 - Micro USB Cable is ultra-resistant and tangle-free. Due to its special finish, it can be used to connect two far away devices in low-light environments. The most accentuated turns and cramped corners will no longer be a problem. It's suitable for supplying and transferring data between devices.

LONG LASTING

This accessory for charging and data transfer is made of aramid fibre. The cable is ultra-resistant to shocks, vibrations and bending. It has undergone a 50,000-bends stress test and has metal connectors. No more wires that break through sheathing after frequent use or manipulation.

EASY AND CONVENIENT

Its 2 metre length allows connecting distant devices. Its braided fabric finish is tangle-free and avoids becoming knotted or entangled during use. The cable is also reflective, allowing it to be used in low-light or poorly lit conditions. This coloured cable gives off light effects and reflections, making it highly attractive.

FEATURES:

- Made of aramid fibre
- Reinforced USB 2.0 and Micro USB connectors 21
- Reflective

- Suitable for charging, transferring and data synchronisation 23
- Tangle-free
- Length: 2 metres
- Stress test: 50,000 bends
