THE FUSION

SINCE 1904

The combination of jazz and rock has given rise to fusion in the world of music. This speaker combines the best of both worlds, offering a rich, warm sound that is perfect for any occasion. The speaker's design is inspired by the classic jazz club, with a wood-grain finish and a black grille that adds a touch of elegance to any room.

PACKAGE CONTENTS
1 Wireless stereo speaker
1 Micro SD card
1 USB cable
1 AUX cable

Wireless speaker in wood with 10 Watts of power, built-in microphone, USB and AUX ports, Micro SD slot

THE WINNING COMBINATION

The **Fusion wireless speaker** is a versatile accessory that expertly combines different elements, hence its name. Its many features and elegant vintage wood finish give this product an eclectic charm.

CONNECT TO MUSIC AND CALLS

Fusion not only allows you to **listen to music**, but also to **answer calls**. Once turned on, simply access the Bluetooth settings of your smartphone and select "JAZZ FUSION".

With the side keys, you can adjust the volume, change track and pause. The built-in microphone allows you to answer incoming calls.

This speaker stands out thanks to its use of **DSP technology** — background noise and echoes are cancelled to ensure a clear, clean acoustic performance. Harmonic distortion is reduced to ensure a sensory experience unparalleled in the industry.

MULTIPLE FEATURES

The rear of the speaker incorporates several ports. The **dedicated slot for a Micro SD card (up to 32 GB)** allows you to listen to MP3 tracks, while the **USB input** is designed to support memory sticks. You can also connect earphones and headphones to the Fusion by inserting their jack plugs in the **AUX port**. Once they are connected, simply press the 'M' key to start this mode.

PLAYING TIME

The Fusion's battery capacity is 1,500 mAh: you can **listen to music for five to six hours**, depending on the volume level you set.

The package includes a power cable: simply connect the Micro USB connector to the speaker's dedicated input and the USB end to a power source. To reach full charge will take 3 hours.

FEATURES:

- Power: 10 Watts
- Bluetooth Version 4.0
- DSP technology
- Built-in microphone
- Multi-function keys
- Micro SD card slot
- AUX input
- USB input for memory sticks
- Music listening time: five to six hours, depending on the volume
