

Double Flexi Glass kit for iPhone 11 Pro

SKU: TEUNSCRKITIP5819K

Nanofibre screen protectors for your display and the 3 rear-facing camera lenses, with applicator included

The *Double Flexy Glass kit* from the **Unbreakable Collection** consists of two nanofibre protectors designed to fully protect the screen (including edges) and the 3 camera lenses on your **iPhone 11 Pro**.

The **one-metre drop tests** certify the strength of both protectors.

The **bubble-free screen protector** is particularly hard-wearing and even the **edges are resistant**, guaranteeing optimum protection against impact and scratches when dropped or knocked against keys, for example.

For the back, a **small applicator** included with the product will help you fit the **3 round protectors** designed to cover each of the camera lenses.

These screen protectors **are transparent, hardly noticeable and discreet**: both your camera and display will be just as easy to use. You can safely take photos or shoot video with exceptional resolution.
