Charging kit for MacBook with 100W dual USB-C charger and tangle-free braided nylon cable

SKU: LAKITTRGAN2C100WW

High performance in a micro format, to always have power wherever you are

100W CHARGING IDEAL FOR MACBOOK

The **100W wall charger kit** is ideal for **ultra-fast and powerful charging** of **MacBook** and other USB-C devices such as smartphones and tablets. Thanks to its high power, it allows efficient charging of high-performance devices, making it ideal for work, study and everyday use even on the go.

OPTIMISED POWER FOR YOUR DEVICE

The charger features **Power Delivery 3.0** technology that dynamically adjusts the power output according to the connected device, ensuring **fast and safe charging** for different devices. You can therefore use the charger included in the kit to power all your compatible USB-C devices without worrying about overload risks or energy loss: the charger automatically adapts to the charging needs of the connected device.

If your device is not compatible with Power Delivery technology, you can still charge it quickly thanks to **UFCS (Universal Fast Charging Specification)**, which ensures wide compatibility with different fast charging standards, offering **stable and universal charging**.

CONVENIENT, COMPACT AND COMPLETE

Thanks to **GaN (gallium nitride) semiconductors**, this charger is more compact and efficient compared to chargers with traditional semiconductors, while also offering greater heat resistance. In addition, the **micro size** (42 x 33 mm) makes this charger extremely practical to carry in a backpack or bag, perfect for travel and commuting.

The **included 2-metre USB-C cable** features a **braided nylon coating** that ensures resistance to wear and tear and a **tangle-free finish**, providing reliability and convenience in every usage scenario. In addition, you can use this cable both to charge your devices and to transfer or sync data.

This kit with 100W charger and USB-C cable therefore represents a compact, practical and complete solution for charging all your compatible devices, even those with high power requirements.

CHARGE TWO DEVICES AT THE SAME TIME

The dual USB-C port allows you to use the charger to power two different devices simultaneously: the charger will deliver 65W from one port and 12W from the other. If you want to take advantage of the full 100W power, connect only your MacBook to one of the USB-C ports.

WHAT MAKES IT STAND OUT

- 100W charger with dual USB-C ports
- GaN semiconductors: compact size and greater efficiency
- Power Delivery 3.0: optimised charging for your device
- UFCS support: wide compatibility with fast charging technologies
- 2 m USB-C braided nylon tangle-free charging and data cable
- Micro design (42x33 mm)

WHAT'S IN THE BOX

- 1 wall charger
- 1 cable

Charging kit for MacBook with 100W dual USB-C charger and tangle-free braided nylon cable
SKU: LAKITTRGAN2C100WW

Technical data

EAN: 8018417541216
SKU: LAKITTRGAN2C100WW
GPSR: The product must not be used by children or by people unable to understand the potential risks., Item subject to WEEE Directive 2012/19/EU, Item subject to CE marking, The device is protected by double insulation, an earthed connection is not permitted, Packaging of the item subject to the "Green Dot" recycling system, Use the product indoors and in a sheltered environment, The item packaging is recyclable, Item subject to UKCA marking
Color: white
Net Depth: 7.4000 cm
Input: 100-240 V A.C. 50/60 Hz - 1.5 A
Net Width: 3.6000 cm
Net Height: 3.6000 cm
Output: 5V D.C. 3A / 9V D.C. 3A / 12V D.C. 3A / 15V D.C. 3A / 20V D.C. 5A (PD 100W)
Weight: 170 g
: 85044060
Connector: 2xUSB-C
Plug type: EU
Technology: GaN, Power Delivery (PD), Programmable Power Supply

Output power: 100W
Charging type: Power Delivery
Input voltage: 100 - 240 Vac / 50-60 Hz
Included accessories: 1 USB-C power cable
Maximum output power: 100 W
