

Charging kit for MacBook with 140W charger and 2 m USB-C cable

SKU: LATR1A2CPD140WW

High performance and simultaneous charging for three devices

ULTRA-POWERFUL 140W CHARGING SUITABLE FOR MACBOOK

This **kit with 140W wall charger** is designed to offer **ultra-powerful and reliable charging**, ideal for **MacBook, laptops** and other latest-generation USB-C devices. Constant power and high performance throughout the day, ideal for working at home or in the office and for long study sessions.

POWER DELIVERY AND PPS FOR SMART POWER CONTROL

The charger included in the kit is designed to offer versatile charging tailored to the needs of your device. The **Power Delivery** technology integrated into the USB-C ports makes it possible to deliver up to 140W by automatically adapting the power to the connected device. **Programmable Power Supply (PPS)** technology also adjusts voltage and current dynamically, ensuring **efficient, stable and safe charging**, ideal for protecting the battery and keeping performance steady over time. The combination of these two technologies makes this charger a versatile accessory, perfect for powering devices with different charging needs.

SIMULTANEOUS CHARGING FOR THREE DEVICES AND USB-C CABLE INCLUDED

Thanks to the **two 140W USB-C ports and the 30W USB-A port**, it is possible to **charge up to three devices at the same time**. Connect only your MacBook to one of the USB-C ports to take advantage of the maximum power of up to 140W, or optimise charging sessions and power three different devices at the same time thanks to this practical kit: for example, you can connect a tablet and a smartphone to the USB-C ports and an e-reader, tablet or wireless earbuds to the USB-A port.

The **included 2-metre USB-C cable** offers maximum convenience and freedom of use, making the kit complete and ready for everyday needs.
