

MY-BEAT TWS Wireless Noise Cancelling Earphones

SKU: MHANCTWSBTW

True Wireless Stereo Earphones with ANC technology, 250 mAh charging base

THE RIGHT CHOICE

The **TWS MY-BEAT** wireless earphones are perfect for people who want a clean sound and who lead an active life. Their **ANC (Active Noise Cancelling)** technology ensures that ambient noise is eliminated, guaranteeing a crisp, clear, uncontaminated sound. The base acts as both a case and a charger.

THE SOUND YOU WANT

These wireless earphones allow you to listen to music, answer or make calls without annoying noises interfering with phone calls or listening to music. The ANC technology provides deep bass and crystal clear high notes: the **clean sound** makes for an intoxicating audio experience.

They are perfect therefore, for anyone who often finds themselves in noisy locations and who wants to **hear the speaker's voice clearly**, or when they want to **listen to music without interference**.

PRACTICALITY AND COMFORT

When taken off the base, these TWS (True Wireless Stereo) earphones switch on and connect to each other immediately, without cables. To turn them off, simply put them back on the base.

POWER AND SECURITY

The 250 mAh base included in the package has two slots for the earphones. In the packaging you will find a USB-C cable for charging the base.

The fully charged base can provide power to the earphones **three times**: this means you will have about 20 hours of music listening.
