

Polarised sunglasses with built-in wireless earbuds

SKU: MHEARGLASSBTk

Don't give up style: call and listen to music directly from your glasses while you are out enjoying the sunshine

Polarised lenses and maximum comfort

These **sunglasses** are ideal for bright sunny days. The **polarised UV400 mirrored lenses** give you the protection you need from sun and UV rays, at the same time ensuring maximum privacy. They are **lightweight**, and the temples fit perfectly around your ears: excellent for prolonged daily use. Their eye-catching minimal style allows you to match them with your work clothes or with jeans and a T-shirt without ever clashing.

Wireless earbuds with Air Conduction System

The **temples** have built-in **wireless earbuds** for listening to your favourite songs. Connect them to your **smartphone, tablet or laptop** as normal TWS earbuds and enjoy **3 consecutive hours of music** even **10 metres away** from the connected device. The **Air Conduction System technology** ensures a clear listening experience **without inserting any kind of accessory into your ears**. This means that you can **hear even outside noises**, giving you maximum safety while walking in traffic. When they run out of power, connect to a charger or power bank using the **USB-A - USB-C cable included** and they will be fully charged in 1 and a half hours.

Splash and rain resistant

If the weather changes and it starts to rain, don't worry: they are **IPX4** certified, so the built-in earbuds won't be damaged by splashing water. They will also work perfectly by the pool or on the beach.

Built-in microphone and multifunctional controls

They are also ideal for work: **call and record voice notes** with the built-in microphone. The buttons below the right-hand temple also give you full **control over your music and volume**.
