RGB LED light for gaming
SKU: MHRGBLIGHW

The light bar colours will elevate your gaming experience and you'll relax while having fun

MOOD LIGHTING

Create an amazing atmosphere while you're having fun with your favourite video games or listening to music in the car. The *RGB LED light* will give you **an exhilarating sensory experience**: watch the coloured bar light up to the beat of your songs.

USE

Place it horizontally next to your TV, PC or car radio, using the **practical stand**. Thanks to a small Velcro strip at the back you can also fix it and stand it up **vertically** without it falling off. It does not need to be connected to the audio source with cables or wirelessly. Thanks to the **built-in microphone**, the light bar will pick up sounds from films, music or video games and turn them into colourful reflections.

ADJUSTMENT

Press the buttons to choose up to **9 lighting modes**: the colours will vary in speed and intensity on the 32 small LEDs of the strip.
CHARGING
The bar is equipped with a **Micro USB** input for charging. Simply connect it via a cable to a power source.

KEY FEATURES:

- 32 small LEDs
- 9 light adjustment modes
- LEDs in PVC
- Built-in microphone
- Micro USB input for power supply
- Stand included in the box
