

IBIZA 5W wireless speaker with multi-coloured LEDs

SKU: MHSPIBIZA5BTK

This wireless speaker is ideal for livening up your home parties

The water-resistant speaker: suitable for beaches and pools, in rain and in the shower

The **Ibiza 5 watt speaker** is a must-have accessory for all music lovers. The **IPX5** certification allows you to take it absolutely anywhere, including by the pool, on the beach or even in the shower. It is actually resistant to low-pressure water jets. **Connect it wirelessly** to your smartphone, tablet or laptop and **you'll enjoy a perfectly stable connection up to 10 metres from the connected device**. You'll have **3 consecutive hours of music** and, when it's out of charge, you can power it through the **USB-A to USB-C cable** included.

You can also listen to music from an SD card

It is equipped with a **TF card slot** to listen to your favourite tunes even when your wireless-connected device is dead. The TF card port is protected by a **rubber flap** to ensure total protection from water splashes.

It gives you the right atmosphere thanks to the multicoloured LED

The way this speaker is designed, you can take the mood from the best of Ibiza's nightclubs with you at all times. A **bright** multicolour LED surrounds the case to brighten up your hours spent listening to music or watching films or videos.

You can carry it wherever you want with the integrated strap

The integrated strap with fluorescent colours is very handy for carrying the speaker with you at all times: just attach it to a **bag**, a **strap** or your **wrist**. Take it to the beach easily, without having to hold it in your hand.

Control music directly from the speaker

At the top you'll find dedicated buttons for managing music **without having to touch the connected smartphone**: pause/play a song, change the song or control the volume.
