

## IBIZA 5W wireless speaker with multi-coloured LEDs

SKU: MHSPIBIZA5BTW

### This wireless speaker is ideal for livening up your home parties

**The water-resistant speaker: suitable for beaches and pools, in rain and in the shower**

The **Ibiza 5 watt speaker** is a must-have accessory for all music lovers. The **IPX5** certification allows you to take it absolutely anywhere, including by the pool, on the beach or even in the shower. It is actually resistant to low-pressure water jets. **Connect it wirelessly** to your smartphone, tablet or laptop and **you'll enjoy a perfectly stable connection up to 10 metres from the connected device**. You'll have **3 consecutive hours of music** and, when it's out of charge, you can power it through the **USB-A to USB-C cable** included.

**You can also listen to music from an SD card**

It is equipped with a **TF card slot** to listen to your favourite tunes even when your wireless-connected device is dead. The TF card port is protected by a **rubber flap** to ensure total protection from water splashes.

**It gives you the right atmosphere thanks to the multicoloured LED**

The way this speaker is designed, you can take the mood from the best of Ibiza's nightclubs with you at all times. A **bright** multicolour LED surrounds the case to brighten up your hours spent listening to music or watching films or videos.

**You can carry it wherever you want with the integrated strap**

The integrated strap with fluorescent colours is very handy for carrying the speaker with you at all times: just attach it to a **bag**, a **strap** or your **wrist**. Take it to the beach easily, without having to hold it in your hand.

**Control music directly from the speaker**

At the top you'll find dedicated buttons for managing music **without having to touch the connected smartphone**: pause/play a song, change the song or control the volume.
