

6W speaker with strap

SKU: MHSPMIAMI6BTP

A multi-input speaker to make your music resonate from any listening source

Multi input: one speaker for all your music

The **6W Miami speaker** allows you to listen to music **wirelessly** from your smartphone, even as far as **10 metres away**. Store it in the practical **casing** to keep it upright and comfortably supported. Moreover, thanks to the ports on the back, you can also connect a **USB key**, a **micro SD** or an MP3 via a **3.5mm jack cable** so you can listen to your music from any source. You'll have **four consecutive hours of music** and, when the speaker is out of charge, simply connect it to a power source via the included **USB-A to USB-C cable**. It is also equipped with **microphone**, meaning you can talk to the person you are speaking with during **calls**.

Resistant to sprays of water and rain

You can also use it on the poolside or for a workout in the rain: the **IPX5** certification ensures optimal **resistance to low-pressure water jets**.

The integrated controls and bass button enrich your musical experience

You don't even have to touch your device to adjust the volume, change songs or play/pause a track: simply use the built-in **keys** on the top of the speaker. Press the **"Bass"** key to boost the bass on your favourite song and ramp up the fun!

A complete speaker: multicolour LED and integrated strap

The **LED** in the two loudspeakers **goes to the beat of the music** and illuminates your evenings spent listening to music or **watching** movies or videos. Use the **integrated strap** to attach it to your backpack, bag or even your wrist. Carry it with you everywhere, with absolutely no hassle.

Key features:
