

## TWS earphones with charging case and LCD screen

SKU: MHTWSKOMBOBTP

### A pair of compact wireless earphones with a charging case

#### A COMPACT WIRELESS DESIGN

If you are looking for an **understated** and easy-to-use option, look no further than the Kombo earphones. They light up as soon as they are taken out of the case, and you can immediately pair them with your **smartphone, tablet, or laptop** with **wireless** connectivity. After the first pairing, they will automatically connect whenever you want to use them. You can enjoy **3 hours of wireless use**: the Kombo earphones offer maximum freedom of movement in your everyday life. What's more, thanks to the built-in microphone, you can also make calls.

#### THE CHARGING CASE LETS YOU HARNESS YOUR POWER

When they are out of battery, the Kombo earphones can be recharged by simply placing them inside the **charging case**, no matter where you are, with **no need to connect to a power source**. And when the case runs out of power, connect it to a power bank or a charger using the included **USB-A - USB-C** cable. The **integrated LCD screen** displays the **remaining charge** for both the earphones and the case. As a result, you can always make sure you have enough power, avoiding any nasty surprises.

#### INTEGRATED TOUCH BUTTONS

On the earphones, you will find controls to **manage your music and calls at the touch of a button**. You can play/pause a song, change tracks, answer/end/reject a call, and activate the voice assistant. Play sports, cook or take a walk without constantly having to take your smartphone out of your pocket.
