Full Cover Anti Blue Light Glass with Eyesafe® CPF60 technology for iPhone 18 Pro Max/17 Pro Max/16 Pro Max

SKU: TEAPPLEYESIP1869

Discover the screen protector with Eyesafe CPF60 technology, applicator included

ADVANCED BLUE LIGHT PROTECTION

Eyesafe is an industry leader in **blue light protection**. Its technology is **developed with the support of doctors** and is scientifically tested to ensure better sleep, visual comfort, and vivid color performance.

These anti blue light screen protectors are designed to support your visual well-being while also **protecting your smartphone** from everyday wear such as bumps or scratches. Thanks to the **integrated Eyesafe CPF60 technology**, these screen protectors **filter 60% of blue light** emitted by the screen, helping to reduce eye strain even during extended use.

THE BENEFITS OF EYESAFE CPF60 TECHNOLOGY

- **Sleep better**: Eyesafe CPF60 filters blue light, which can influence melatonin production and sleep quality.
- **Eye comfort:** The advanced filtering technology supports mobile device users and helps maintain long-term eye wellness.
- **Vivid display color:** Protect your display and your eyes without compromising the vibrant colors of your screen.

DEVELOPED WITH DOCTORS TO PROTECT YOUR EYES AND SLEEP

Blue light from screens can interfere with the natural sleep–wake cycle. Thanks to **patented Eyesafe CPF60 technology**, these screen protectors **help reduce the negative effects of blue light**, helping you enjoy a more restful sleep. The technology is designed to selectively filter the wavelengths most likely to affect sleep while enhancing overall visual comfort.

OPTIMIZED FOR OLED DISPLAYS

Unlike other screen protectors, Eyesafe CPF60 is optimized for modern smartphones with OLED screens. Instead of completely filtering blue light and causing the display to appear yellowish, Eyesafe technology **selectively filters blue light and rebalances colors**. With the SBS Eyesafe screen protector, you can protect your device and support visual comfort without compromising color quality.

EASY AND PRECISE INSTALLATION

Inside the package, you'll find an **intuitive anti-dust applicator** that allows you to place the screen protector quickly and effortlessly, helping you avoid air bubbles. Thanks to this applicator, you can achieve a professional-level result at home.

KEY FEATURES

- Eyesafe CPF60 technology: blue light filtering
