

Multifunctional 3000 mAh Power Bank with SOS kit

SKU: TEBB3000OUTSOSK

A single accessory to guarantee absolute safety in emergency situations or during your outdoor adventures

The perfect solution for camping, travel and emergency situations

This Power Bank from the Wild Gear line is designed to ensure **safety even in unexpected situations**. Multiple functions in a single accessory: charge, illuminate, signal your presence, break glass or cut seat belts.

An essential accessory to take with you wherever you go: in the car; when camping, trekking or taking part in other outdoor activities; or simply in emergency situations.

Emergency kit

Always be sure to keep this multifunctional tool with you in your vehicle. Even in dangerous situations, it will help you get out of the car and indicate your position in complete safety. It is actually equipped with a **belt cutter** to ensure a quick escape and a **safety hammer** to easily break glass.

In case of an accident or vehicle breakdown, signal your presence using the **SOS function**: the torch will glow red and a high decibel sound will be emitted.

USB-A port for emergency charging

Charge your compatible devices to make sure you never run out of power, even in unexpected situations. The Power Bank is equipped with a **USB-A port that delivers up to 5 W** of power: perfect for charging small accessories such as smartwatches, earphones, speakers and GPS devices.

Integrated solar panel and LED indicators

Thanks to the integrated solar panel, this Power Bank can also be **recharged using solar energy**: by harnessing an accessible source of energy, it makes a perfect emergency charger.

Furthermore, the integrated **LED indicators** allow you to monitor the Power Bank's charge level, indicating when it will be ready for use again.

Light wherever you need it

This multifunctional tool is also equipped with a **dual-mode light**. Use it as a **work light** if you need more powerful lighting; you can easily fix the tool in place thanks to the magnetic base. Alternatively, choose the **torch mode** to direct the light beam where you need it.

Both modes are adjustable and offer many hours of battery life (up to 20 hours for the work light and up to 100 hours for the torch).

Technical features and package contents

- Battery capacity: 3000 mAh
- USB-C input port: to recharge the Power Bank
- USB-A 5W output port: to charge smartwatches, earphones, GPS devices, etc.
- Dual-mode light: 500 lm work light and 90 lm torch
- Solar panel: charging using solar energy
- Emergency kit: safety hammer, seat belt cutter, SOS alarm function
- LED indicators
- Magnetic base and folding hook
- The package contains: 1 Power Bank and 1 USB-C power cable
