

Wireless magnetic power bank with stand function

SKU: TEBB5000MAGSTANDW

Your smartphone is supported and, at the same time, recharged wirelessly

It'd be hard to find a more comfortable power bank: wireless and with built-in stand

The multifunctional power bank (from **5000mAh**) was designed for those looking for a convenient and functional charging accessory. Simply place your **smartphone from** Samsung, Huawei, Xiaomi, Oppo and many other brands with **wireless charging** on its surface for **5W** charging. With a normal wireless charger you would have to leave the phone charging making it difficult to use, but this accessory also has a practical **support** stand. When you open it, the powerbank will remain vertical: rest your smartphone on it to view photos and videos conveniently while recharging. When closed, the stand will never be in the way, as it is **perfectly integrated** in the portable charger.

Also compatible with MagSafe thanks to the magnet

If you have an iPhone with MagSafe charging, this 5000 mAh power bank is for you. The surface dedicated to wireless charging has an **integrated magnet** which will attach to the body of your mobile phone. Keep it with you at all times, conveniently: **it won't separate from your Apple iPhone**.

If you don't have wireless charging, no problem: it has two USB ports

To use this accessory, your phone doesn't need to be wireless charging enabled. You can simply plug your own cable into the **USB-A or USB-C** sockets to **charge** your smartphone at **10W** and use the power bank's surface as a simple **stand**. Thanks to **Intelligent Charge** technology, your device will be powered **quickly** and absolutely **safely**. The USB-C port can also be used to **power the powerbank** when uncharged using the included **USB-A - USB-C cable**. The two USB sockets can also be used to charge **two devices** such as tablets, speakers, e-readers, smartwatches **simultaneously**.

Compact and suitable for air travel

Thanks to its small size (9x6x1.7 centimetres), this portable charger can be easily stowed in a **backpack** or a **handbag**. When you remove it from the box it is **immediately usable** and can easily be transported by plane.

Key features:

- 5000 mAh
- magnetic surface for 5W wireless charging
- compatible with MagSafe-enabled iPhones
- integrated support stand
- 1 10W USB-C input and output port
- 1 USB-A 10W output port

- fast charge
- dimensions: 91x61x17mm
- 4 status LEDs to monitor the powerbank's charge level
- pre-charged: already charged upon purchase
- can be taken on flights

Includes:

- instruction manual
- USB-A - USB-C charging cable
