1 m 240W Power Zero USB-C cable in braided nylon with smart LED indicator and automatic stop

SKU: TECABLE15TCC100ZS

Smart charging with instant control and fast data transfer

USB-C CHARGING UP TO 240W WITH SMART LED INDICATOR

The **240W USB-C Power Zero cable** is designed to charge iPhones, smartphones, and other compatible devices while monitoring every stage of the charging process. The built-in **Smart Power Indicator** changes colour based on the power delivered: it flashes green below 18W and orange above 18W, providing immediate feedback on charging performance.

AUTOMATIC STOP TO REDUCE BATTERY STRESS

The **Automatic Stop Charging** function intelligently stops charging when the preset battery level is reached, helping to reduce unnecessary stress and preserve battery performance over time. When the battery is fully charged and the automatic stop is active, the **LED remains steadily lit for 30 minutes**.

BRAIDED NYLON AND DATA TRANSFER AT 480 MBIT/S

The **braided nylon** coating makes the cable practical for everyday use, while the **1-metre length** offers freedom of movement during charging. In addition to supporting power up to **240W**, the cable allows for **data transfer up to 480 Mbit/s**, combining charging and syncing in a single USB-C accessory.
