

Cleaning kit for electronic devices

SKU: TECLEANPASTESET

Paste and brush for thorough cleaning

EASY DUST REMOVAL

Thanks to the **adhesive paste included**, this kit enables **deep and delicate cleansing** even in the most difficult spaces. Imagine wanting to clean your smartphone before applying a new cover: with a simple touch, the paste **removes crumbs, dust and residue** from speakers, charging ports and microphones. **Doesn't leave streaks**, is non-greasy and can be easily removed.

CLEANING WITH A SMALL BRUSH

In addition to the paste, the kit includes an **ultra-thin mini Brush** ideal for reaching narrow crevices. When you need to clean between the keys on your keyboard or around the edges of your phone, the little brush allows you to eliminate **accumulated dirt** without scratching surfaces. It's the perfect companion for keeping your devices impeccable at all times, wherever you are.

FAST AND INTUITIVE USE

In just **three simple steps**: take the necessary amount of paste, press it onto the surface to be treated and remove it carefully. In a few seconds the device will be **free from dust and impurities**. A small act that makes a big difference, especially before charging or using earphones.

KEY FEATURES
