

## Car Charger with recycled material GRS

SKU: TECRPD25LGGRS

### The high-performance, eco-friendly car charger

#### Made from GRS-certified recycled plastic

This **car charger** contains **50%** of certified recycled PC. The **Global Recycled Standard (GRS) certification** is internationally recognised and guarantees the traceability of recycled materials. This car charger is manufactured in accordance with the highest **environmental and social standards** for recycled materials. Particular attention was also paid to the **design**: elegant and minimalist with distinctive details.

#### Designed to charge your devices even in the car

This car charger allows you to charge your **smartphone, tablet, e-reader, speaker, or wireless headphones** even in the car. Plug it into the **12V cigarette lighter socket** of your car, connect the device via your compatible cable and charging will start automatically. Ideal for those times when you absolutely need to charge your device but can only do so in the car on the way to the office, or when you have a long car journey ahead of you.

#### The USB-C port charges reliably and ultra fast

It transfers power at **25 watts** and, thanks to **Power Delivery(PD)** technology, this massive amount of power is transmitted in **total safety**, preventing short circuits or overheating to the device being charged.

#### Compact: perfect for car sharing

It is extremely compact and can be easily stored in your laptop case, handbag, backpack or jacket pocket. This way, if you have to change cars, it is simple to **remove and can be easily and taken with you**.
