96W Car Charger with USB-C and USB-A Ports and 75 cm Retractable USB-C Cable, 30W PD Fast Charging

SKU: TECRRETFOLDPD96

Charge up to 3 devices simultaneously with a cable that is always tidy.

UP TO 96W POWER FOR FAST CAR CHARGING

Take your device charging to the next level with the **SBS 96W car charger**. The USB ports built into vehicles often provide limited charging power, especially when connecting devices that require more energy. This charger utilises the vehicle's 12V or 24V socket to deliver a **total power output of up to 96W**, higher than what many standard USB ports offer.

With **3 charging outputs**, you can power smartphones, tablets, and compatible laptops simultaneously, as well as travel accessories like **wireless earphones, smartwatches, power banks, and GPS navigators**. The **Power Delivery technology up to 30W** ensures fast charging for compatible devices. A versatile solution to keep your devices charged every day, from your daily commute to longer trips.

75 CM RETRACTABLE USB-C CABLE FOR A TIDY CAR

The **Pull & Plug system** features a **retractable USB-C cable up to 75 cm**, always ready for charging. Simply pull it out to your desired length to connect your device and, after use, rewind and secure it magnetically. This system helps **avoid tangled cables and clutter** in the cabin, keeping your charging area neat. Additional **USB-C and USB-A ports** also allow you to connect two more devices without needing extra chargers. A particularly convenient solution for those who use smartphone navigation or want a charging cable always at hand while on the move.

360° ROTATING HEAD AND PPS TECHNOLOGY FOR VERSATILE CHARGING

The compact design with a **360° rotating head and tilt connector** allows you to position the charger according to the vehicle's socket location, making the charging ports easily accessible. The **30W Power Delivery** and **PPS (Programmable Power Supply)** support enable the power output to adapt to the needs of compatible devices. Designed for **12V and 24V sockets**, this cigarette lighter charger is a practical and versatile accessory for managing the charging of multiple devices on every journey.

KEY FEATURES

- Total power output up to 96W
- Simultaneous charging of 3 devices
- 30W fast PD charging
- Integrated PPS technology
- 75 cm retractable USB-C cable
- Pull & Plug system

- Magnetic rewind and fastening
- USB-C and USB-A ports
- 360° rotating head
- Tilt connector
- Compatible with 12V and 24V sockets
