

BT501 Wireless Magnetic Multipoint Earphones

SKU: TEEARBT501K

Wireless Multipoint headset with ear loops and neck strap with magnetic attachment, and controller with buttons for managing music and calls

PERFECT FOR AN ACTIVE LIFESTYLE

Wear them around your neck with the magnetic clasp so they don't fall when you wear them. The **BT501 wireless earphones** are the perfect solution for those who are always on the go and want to enjoy music and calls throughout the day. Thanks to **Multipoint technology**, you can wirelessly connect two devices to your earbuds at the same time.

ADVANTAGES OF EASY USE

Access your smartphone's Bluetooth settings and pair the wireless earphones with your mobile phone.

The **neck strap with flat anti-tangle finish** closes when the headsets are joined together. The earphones are equipped with a **magnet** to attach them together. You can wear them around your neck and use them immediately without having to remove them from pockets or cases.

The in-ear design is not only very comfortable, but also prevents outside noise from disturbing you during use.

The earphones are also equipped with **practical ear loops**. When worn, they'll stay put even when you're on the move. They're also excellent when you're exercising.

MANAGING MUSIC AND CALLS

There is a controller on the strap that will allow you to **manage your music and calls**. You will be able to answer or reject calls, redial the last number, increase or decrease the volume, and switch from one track to another.

CHARGING YOUR EARPHONES

The controller features a Micro USB input: connect the **included cable** to a power source to charge the earphones.
