

## OWS earphones with ear hooks and charging case

SKU: TEEARTWSAIRBUDSBTP

### Listen to music and make calls without inserting them into your ears: Air Conduction System technology offers optimal convenience

#### DESIGNED TO GENTLY REST ON YOUR EARS

These **OWS (Open Wireless Stereo)** earphones do not have to be inserted inside the ears: they rest gently over the ear canals, offering you an **optimal balance** between **outside noise** and your **chosen** music. Thanks to the **built-in microphone**, you can also make calls or record voice notes. Talk and listen to music for up to 4 consecutive hours.

#### EAR HOOKS PROVIDE STABILITY EVEN WHILE PLAYING SPORTS

They are the perfect choice for sports thanks to the practical removable ear hooks, designed to keep the earphones stable. Inside the packaging, you will find **two sizes**: choose the option that fits your ears best. **Air Conduction System technology** helps you hear outside noises to keep you safe while running.

#### CHARGING CASE FOR THE BEST WIRELESS EXPERIENCE

The charging case is great for protecting the earphones, but also for **on-the-go charging**. When the open-ear headphones are out of power, simply place them inside the case, **with no need to connect to a socket or other power source**. And when the case runs out of power, you can connect it to a charger or a power bank using the **included USB-A - USB-C cable**.

#### CONTROL YOUR MUSIC AND CALLS DIRECTLY FROM YOUR EARPHONES

The integrated controls on the earphones give you the option to **answer/end/reject a call**, **activate the voice assistant**, **change track** or **adjust the volume** without fishing for your device. Everything you need is within easy reach.

#### Key features:

- OWS (Open Wireless Stereo): they rest on the ears without going inside the ear canals
- built-in microphone
- Air Conduction System technology: excellent balance between outside noise and transmitted sound
- 400 mAh charging case
