

TWS semi-ear in-ear headphones

SKU: TEEARTWSGOPODSK

The ideal wireless headphones for everyday needs

Perfect for music and calls

The **Go Pods headphones** connect to your **smartphone, tablet or laptop wirelessly**, so you don't need any cables to connect them. The **operating range of 10 metres** ensures a stable connection even when your device isn't near to you. The **True Wireless Stereo (TWS) technology** automatically syncs the two headphones together to give you a convenient and comfortable audio experience. You can listen to **3 hours of music** and, thanks to the **integrated microphone**, you can also talk to your caller during a call or record voice notes.

Recharge them anywhere thanks to the charging base

The **200mAh case** not only protects your headphones, but gives you the ability to charge them without an additional power source. Place the headphones inside and charging will start automatically. Thanks to the base, you will get **up to 12 hours of playback**. When it too runs out of power, you can connect it to a charger or power bank using the **USB-A - USB-C cable** included.

Manage music and calls directly from your headphones

The **touch controls** on the headphones give you maximum control over music and calls with a simple touch, without ever touching the connected device. You can **play/pause music, change tracks, answer/end/reject a call, redial the last number** and even **activate the Google or iOs voice assistant**.

Detailed and colorful design

The **semi in-ear** design offers optimal comfort for your ears. The linear, colourful design with shiny details also makes this accessory pleasant and suitable for **free time** and while at **work**.
