360° rotatable mobile phone holder for bicycles and scooters

SKU: TEERIDEHOLD360

The rotatable mobile phone holder for those who want their smartphone constantly always at hand when using their bike or scooter

ATTACHES TO THE HANDLEBARS

The **360° rotatable mobile phone holder**is perfect for **attaching your smartphone**to the handlebars of a **bike** or **scooter**. Simply clamp the clamp to the handlebars of your two-wheeled vehicle and then attach the support that wraps around your Apple, Samsung, Xiaomi, Huawei or other device brand to keep an eye on it at all times during the ride.

The **soft silicone wings**wrap around the top and bottom of the phone **, preventing it from falling** and **avoiding vibrations** on any type of terrain.

FULLY ROTATABLE

This bike and scooter mobile phone holder can be **rotated 360°**, which means you can keep your smartphone not only in a vertical position on the handlebars but also horizontally. Keeping an eye on your GPS or monitoring your performance, for example through our free Go Life App, will be even easier.

ATTACH AND DETACH

The support with the silicone wings can be **easily removed**from the clamp positioned on the handlebars, so when you want to stop and leave your vehicle for an errand you can unhook the smartphone and take it with you without wasting time.

DISTINCTIVE FEATURES:

- attaches to the handlebars of bicycles, E-Bikes or scooters
- 360° rotatable
- minimises vibrations
- CAN BE DISASSEMBLED
- suitable for smartphones up to 6.5 inches
