Bike bell with built-in tracker compatible with Apple Find My and Android Find Hub, IPX5 certified

SKU: TEFINDBELL

A 2-in-1 accessory to signal your presence and locate your bike or scooter

BIKE BELL WITH BUILT-IN TRACKER

This **bike bell with tracker** combines two functions in one compact accessory: it lets you signal your presence while riding and locate your bike or scooter using your smartphone. A practical solution for anyone who uses their bike every day, whether for commuting or training, and wants to add a tracking function without installing a separate device.

COMPATIBLE WITH APPLE FIND MY AND ANDROID FIND HUB

The built-in tracker offers **dual compatibility** with **Apple Find My** and **Android Find Hub**. This allows you to pair the bell with your preferred location app on both iPhone and Android devices and check the position of your bike or scooter directly from your device. The tracker is powered by a **replaceable CR2032 battery**: once it runs out, simply open the tracker and replace the battery to continue using it.

COMPACT AND DURABLE

The **bike bell with tracker** is compatible with handlebars measuring **22.2 to 25.4 mm** and is designed for quick and intuitive installation. The **IPX5 certification** provides resistance to water splashes, making this accessory ideal for outdoor use, even when it rains. The tracker can be used at temperatures ranging from **-5 to 45 °C**, making it suitable for different climates and seasons.
