

Water resistant object locator compatible with Apple Find My 2 pcs

SKU: TEFINDTAGAPC

Never lose your stuff again! Locate keys, bags, bicycles and more quickly and easily.

The object locator that will make your life easier

Ever wasted time looking for your keys or purse? With our **Track My Circle object locator**, compatible with the **Apple Where's it app** that connects to the **Find My network**, you can say goodbye to these problems. It is designed to be practical and immediately ready for use.

Locating compatible with Apple's Where's app: the advantages

This locator integrates seamlessly with the Apple Where's app, allowing you **to track your objects in real time**, whether it's your keys, bag or even your bike. Thanks to its circular shape and key ring hole, it is very easy to attach to everyday objects, without ever being conspicuous.

Ready to use with battery included

There is no need for complex preparations or difficult configurations. The device arrives **ready to use**, complete with a CR2032 battery, which guarantees long life and allows you to use the locator immediately.

Powerful audible alarm

If you cannot find an object nearby, you can activate an audible alarm directly from the app. The device emits a clear and powerful sound, **audible up to 50 metres away**, helping you to locate the object within seconds.

IP65 certified resistance against dust and water

Designed to be used anywhere, the tracker boasts **IP65 certification**. This means it is **protected against dust and resistant to water splashes**, making it ideal for any condition, whether you are indoors or outdoors.

What sets it apart:

- compatible with Apple app Where is
- 90-100 dB alarm volume to be audible up to 50 metres away
- immediately ready to use: CR2032 battery included
