

Wireless Trackers compatible with Apple Find My and Google Find Hub

SKU: TEFINDTAGAPGO4SET

4 trackers to pair with your accessories, devices, and important belongings

Always with you, no matter where you are

Thanks to these **wireless trackers**, you will never have to worry about losing your keys, rucksacks, suitcases, or any other important items again. **Compatible** with both **Apple Find My** and **Google Find Hub**, it allows you to locate your belongings from any device, whether you use an iPhone, iPad, Mac or Android smartphone.

Easy connection to Apple and Google

Set up the trackers in a **flash**: For Apple Find My, simply open the native "Find My" app, add your device, and immediately start viewing its location on the map. With Google Find Hub, you can access Android's built-in network that allows you to locate devices even offline, leveraging the global community of Android users. In just a few steps, your items will be permanently connected to your ecosystem, ready to be located at any time.

Advanced location features with audible alarm

In addition to **showing their position** on the map, the trackers can emit a **60 dB audible alarm**, which you can activate directly from the app. It is the perfect solution for immediately locating lost objects in your home, car or office. No matter where they ended up, a loud, clear beep will help you find them in seconds.

Compact, durable and ready-to-use design

Each tracker measures just 34 mm in diameter and 9 mm deep: thanks to its compact dimensions, it can be easily attached to a keyring, dropped into a bag or slipped into a wallet without taking up much space. A long-lasting and replaceable CR2032 battery is included in the package, offering you a device that is **immediately ready for use**.
