

Track My Taggy Tracker with Dual Compatibility Apple Find My and Google Find Hub

SKU: TEFINDTRAVTAG

Easily locate suitcases, bags and backpacks even while travelling

COMPACT TRACKER FOR BAGS, BACKPACKS AND SUITCASES

Track My Taggy is the ideal compact tracker for people who are always on the move and want to keep their most important belongings under control. Its slim and minimal design is made to take up very little space, allowing you to slip it into an internal pocket of your suitcase or easily attach it to backpacks and bags thanks to the practical integrated ring. A discreet and practical accessory, perfect for airports, hotels, daily commutes and weekend trips.

UNIVERSAL COMPATIBILITY

This **tracker** works with both **Apple Find My** and **Google Find Hub**, offering a versatile solution for iPhone and Android users. You can track your luggage or backpack directly from your smartphone: once paired, the tracker will appear on the map inside your app wherever it is. The **50-metre connectivity range** ensures that your tracker's location is always accurate and updated.

When the tracker is nearby, activate the integrated sound alert directly from the Apple Find My or Google Find Hub app to locate it more easily. It is especially useful when trying to find, for example, a bag at home, a backpack in the office or a suitcase while travelling.

REPLACEABLE BATTERY AND COMPACT TRAVEL DESIGN

Start using the tracker immediately after setup thanks to the included **CR2032 battery**; once discharged, simply replace the battery to continue using the tracker. Thanks to its compact dimensions (**98 x 32 x 8 mm**) and lightweight design of just **17 grams**, Track My Taggy is an essential and easy-to-carry accessory for everyday use.
