

2-in-1 RX/TX wireless audio adapter with universal 3.5 mm jack

SKU: TEJACKRXTXBTk

Make any audio device wireless: Connect your TV, car stereo or headphones without cables.

Wireless connectivity for any audio device

With the **SBS RX/TX wireless audio adapter**, you can transform any device with a 3.5 mm jack input into an audio system with **wireless connection**. It's perfect for connecting **TV, car radio, PC, headphones or stereo systems**, eliminating any cable clutter.

Receiver and transmitter mode in one click

Thanks to the dual mode **receiver (RX)** And **transmitter (TX)**, this adapter suits every need. In RX mode, it receives the audio signal from wireless devices and sends it to audio systems or car stereos, for example. However in TX mode, it sends audio from wired sources to wireless headphones or speakers.

Autonomy and practicality in pocket format

Equipped with **320mAh rechargeable battery**, it offers **up to 8 hours of continuous use** and recharges via the practical **USB-C port**. The **compact size** (58.5 x 29 x 11.5 mm) makes it perfect for use at home, on the go or in the car.

Full compatibility with 3.5 mm jack

The **3.5 mm universal jack connector** ensures compatibility with most audio devices on the market. Whether you're at home, in a car or on a plane, you can enjoy your music wirelessly whenever you want to.

Main features:
