

## 4D Full Glass Screenshot for Vivo V50

SKU: TESC4DVIV50

### Protective film made from tempered glass for Vivo V50, black color

This special **protective film**, which is actually made from **tempered glass**, provides protection for your Vivo V50 from **bumps** and **scratches**. It adheres perfectly to the display of your Motorola 50, freeing space for the camera, microphone and sensors. It has been specially designed to **absorb impacts** and ensure a perfect display while **rounded edges** allow the screenshot to adhere to the smartphone screen.

The film is covered with a special **oil-repellent coating** that makes annoying spots on the screen appear less visible.

Applying this protective film is **extremely simple**: use the two cloths included in the package (one wet and one dry) to clean and dry the screen. Then, gently press the protective film onto the screen, paying particular attention to the corners.

Features:

- Material: toughened glass and silicone
- **Curved edges** protect the entire display
- Shock and scratch resistant

The holes on the screenshot may not correspond exactly with those holes that are visible on the phone but they will allow the possible non-visible sensors to function correctly.
