

10 Watt foldable solar panel

SKU: TESOLARCHG10W

Recharge all your devices solely through sunlight

An amazing solar panel designed for hiking, trekking, camping and outdoor activities

This **solar charger** allows you to charge all your devices safely, economically and **eco-sustainably**. On sunny days, simply open it up and its large surface area transforms solar energy into electricity. Storing it is easy: **it folds up** and attaches thanks to Velcro fasteners, making it very compact and slim. **You can also hang it** from your tent or backpack by attaching the included carabiners to the tabs on the sides of the panel.

Recharge up to 2 devices at the same time quickly

The 10 Watt solar panel can power smartphones, tablets, speakers, TWS headsets, smartwatches, e-readers and camping lamps. Use the **2 ports**, even simultaneously, to give your devices the power they need wherever you are. Open the pocket and you'll find **one port USB-A** and **one USB-C** that deliver up to **10 watts** of power in total. When using all these ports together, the power is divided between the various outputs. The USB sockets are equipped with **Intelligent Charge (IC) technology** that ensures your device is always supplied with the right amount of power.

The large pocket is dedicated to your cables and accessories

The **net pocket**, which you will find after unzipping, is designed to store your cables, accessories and adapters worry-free. This way, you can protect your charging devices from the sun and avoid overheating.

Key features:

- foldable on itself
- converts into a briefcase thanks to integrated Velcro fasteners
- up to 10 Watts of power
- 2 ports designed for simultaneous use
- 10 Watt USB-A port with Intelligent Charge (IC) technology
- 10 Watt USB-C port with Intelligent Charge (IC) technology
- mesh pocket
- tabs to attach carabiners

Contents include:

- 2 carabiners
- 1 x instruction manual

10 Watt foldable solar panel
SKU: TESOLARCHG10W

Technical data

SKU: TESOLARCHG10W
Weight: 250 g
Output power: 10W
Maximum output power: 10 W
EAN: 8018417452352
GPSR: The product must not be used by children or by people unable to understand the potential risks., Item subject to WEEE Directive 2012/19/EU, Item subject to CE marking, Packaging of the item subject to the "Green Dot" recycling system, The item packaging is recyclable, Item subject to UKCA marking
Color: black
Input: Solar panels: 4 x 2.5W (10W)
Output: DC 5V + 1.5A USB
Connector: 1xUSB-A, 1xUSB-C
Plug type: n/a
Technology: Intelligent Charge
Connector 1: 1xUSB-A, 1xUSB-C
Charging type: Fast
Input voltage: N/A
Included accessories: 2 carabiners, User manual
