Suction cup car holder for smartphones with wireless charging

SKU: TESUPPMAG15W21

The MagSafe compatible car holder that attaches to the windscreen and dashboard

Attaches anywhere on your windscreen and dashboard

The **wireless mobile phone holder** is equipped with a suction cup that allows it to be attached anywhere on the **windscreen or dashboard**. This feature makes it ideal for **any type of vehicle**, including cars, vans, trucks and camper vans.

Universal magnetic attachment thanks to the magnetic ring included

The smartphone docks magnetically: if you have an iPhone with **MagSafe** you only need to bring the phone close to the holder, but if you have **any other type of smartphone from Samsung, Oppo, Xiaomi, Huawei or other brands,** you will need to attach the included magnetic ring to its casing. **You** can fix the smartphone vertically or horizontally in one go.

Compatible with MagSafe and wireless charging

Connect the mobile phone holder to a car charger or to your vehicle's USB port using the **USB-A - USB-C cable** included. In this way, the magnetic surface will deliver **15 watts of power** recharging your compatible smartphone with wireless power. The **Automatic Detection System (ADS) technology regulates the energy** delivered by always providing the right amount even for smartphones requiring less than 15W: you will always be guaranteed charging without overheating or short circuits.

Flexible Arm

The arm gives you the option to adjust the support to your liking thanks to its optimal flexibility, adapting to the structure of the passenger compartment. The ball joint also allows you to tilt the magnetic module to give you the **best view of the phone** while driving.
