Universal mobile phone holder with 360° rotation

SKU: TESUPPROUNDDASH

Ideal for using your smartphone as a sat-nav in complete safety while driving

ADJUSTABLE THROUGH 360°FOR OPTIMAL SCREEN VISUALISATION

Thanks to the **full 360° rotation**, this dashboard mobile phone holder allows you to **position your phone precisely** according to your needs. While travelling by car, you can **position your smartphone vertically or horizontally to follow the sat-nav** without ever taking your eyes off the road. Whether you're driving in the city or on country roads, the holder remains stable and visible from every angle, ensuring **safer and more comfortable driving**.

ADHESIVE BASE AND NON-SLIP DESIGN

The **ultra-resistant adhesive base** ensures stable attachment to the dashboard, avoiding accidental movements, even where there are potholes or bends. Once positioned, the mobile phone holder remains firm and **leaves no residue** when it is removed. The **non-slip design** protects your device from falls and slips, even if you have to brake suddenly. The adhesive surface is washable and reusable.

ANGLE ADJUSTMENT UP TO 30°

With the option to **tilt the holder through 30°**, you can easily find the right angle to avoid glare and improve screen visibility. Imagine being in a traffic jam or bright sun: all it takes is **a slight adjustment of the angle** to maintain a constant clear and comfortable view, without distractions.

KEY FEATURES

- Full 360 degree rotation
- Washable adhesive base
