

Magnetic wireless car mount 15W with suction cup and 360° rotation

SKU: TESUPSUCTIONMAG15W

Perfect charging and stability during every journey

MAGNETIC CAR MOUNT WITH 15W WIRELESS CHARGING FOR SMARTPHONES

The **magnetic car mount with wireless charging** is the ideal solution to charge your **smartphone** quickly and safely up to **15W**. Thanks to the magnetic system, the device remains stable while driving, perfect for **GPS navigation, hands-free calls**, and everyday use in the car.

SECURE MOUNTING: SUCTION CUP WITH LOCK AND ADHESIVE SURFACE

The mount features a **suction cup with lock system (Suction Cup Lock System)**, which creates a vacuum effect to firmly attach to the **dashboard or windshield**. Once positioned, simply activate the lever to secure it firmly and durably.

Additionally, the **adhesive surface** further enhances grip, ensuring safe installation even on surfaces that are not perfectly smooth. The result is a **consistently stable mount**, even on uneven roads.

360° ROTATION FOR PERFECT VIEWING

The **360° rotation** allows you to easily adjust the phone's angle, always providing the best view in vertical or horizontal mode.

FOLDABLE, COMPACT DESIGN WITH STATUS LED

The **foldable and compact design** makes it easy to store when not in use. The **integrated LED** indicates the charging status. Compatible with **iPhone, Samsung, Xiaomi, and other smartphones** thanks to the included metal plate.

KEY FEATURES

- Magnetic car mount with wireless charging
- Charging power up to 15W
- Mounting with suction cup and adhesive surface
- Full 360° rotation
- LED charging indicator
- Foldable and space-saving design
- Compatible with iOS and Android smartphones

WHAT'S INCLUDED IN THE BOX

- 1 magnetic wireless car mount
- 1 metal plate
- 1 charging cable

Magnetic wireless car mount 15W with suction cup and 360° rotation
SKU: TESUPSUCTIONMAG15W
