

Car holder with wireless charging for foldable smartphones

SKU: TESUPWIR15FOLD

Ideal for keeping your foldable smartphone always safely at hand, even in the car

Designed for foldable smartphones

This **car phone holder** is perfect for your **foldable smartphone**, for example the **Samsung Galaxy Z Fold**, **OnePlus Open**, **Honor Magic V2**, **Huawei Mate X3** and many more. Thanks to the **arms that can be extended up to 19 centimetres**, you can insert your folding phone **horizontally or vertically** to better view GPS coordinates. If you need a high-performance car holder but have a standard smartphone, don't worry: the car holder with wireless charging is **compatible** even with **non-foldable** and **flip** phones such as the Samsung Z Flip.

Automatic closure

By simply touching the **opening button** located on the body, the arms will open to their full extent. As soon as the smartphone is placed on the surface of the holder, the automatic lock will be activated, perfectly securing the phone. You will also be able to position your smartphone using **one hand** only, ensuring maximum convenience when, for example, you are in a hurry.

15 Watt wireless charging

Connect the holder to a car charger or to the built-in USB port in your car using the **power cable** included. In this way, the surface of the mobile phone holder **will supply wireless power** to your smartphone with 15W of power. The **Automatic Detection System (ADS)** technology adjusts power according to the phone's power requirements. This feature is particularly useful for smartphones that require less power for charging, thus ensuring a **totally safe power supply**.

Attaches to the air vent

Thanks to the **clamp clip** you can attach the wireless phone holder to the car's air vent quickly and easily.

Tiltable

The joint allows you to **tilt** and **swivel** the mobile phone holder at will: your smartphone will always be positioned in the way that suits you best.

Ultra stable thanks to the double clip

It is equipped with a **stabiliser** that rests on the windscreen, ensuring your **smartphone is always stable** and greatly reducing vibrations.

Key features:

- ideal for foldable smartphones
- maximum opening: 19 centimetres
- Integrated wireless charging up to 15W
- Automatic Detection System (ADS) technology: regulates the energy transmitted
- clip to attach to air vent
- adjustable
- Stabiliser

Contents include:

- 1 power cable
- 1 instruction manual
