# Car phone holder with 15W wireless charging
SKU: TESUPWIR15WPRO

## The car phone holder that keeps your smartphone stable and charges it wirelessly

### SMARTPHONE HOLDER

The **car phone holder with wireless charging** allows you to easily interact with your smartphone during your travels and charge wirelessly. The **practical clip** allows this accessory to be attached **to air vents of different sizes.**

### WIRELESS CHARGING

The holder will supply power when connected to a car charger via the **USB - USB-C cable supplied**. If your smartphone is **QI-compatible**, it can be powered wirelessly by simply placing it on the accessory. With the **15W power,** your **mobile phone battery** will be **charged in 50 minutes\*.**

In addition, **ADS (Automatic Detection System) technology** regulates the power transferred according to the device's power requirements, preventing overheating and short circuits. This feature is **suitable for iPhones** that require a 7.5W power supply.

### AUTO LOCK

Bringing your smartphone close to the holder will activate the **motion sensor** that will automatically close the arms around it and keep it perfectly stable. **Easy to release**: simply press the **touch button** on the back.

### TILTABLE

The **adjustable clamp** can be tilted as required. So when you're stopped at a traffic light or in a car park, you can unlock your phone through **facial recognition** without having to detach it from the holder.

*charging time depends on the smartphone, battery and usage.

### KEY FEATURES:

- suitable for smartphones up to 80mm
- Attaches to the air vent
- wirelessly charges your smartphone
- 15W/10W/7.5W/5W power output
- maximum transmission distance: 5mm
