

65 W USB-C GaN wall charger with Power Delivery 3.0 and Programmable Power Supply

SKU: TETRAN1C65WW

Power in a compact size: fast and reliable charging up to 65 W, also ideal for laptops

FAST CHARGING UP TO 65 W FOR SMARTPHONES, TABLETS AND LAPTOPS

The **65 W USB-C wall charger** offers powerful and fast charging for **compatible smartphones, tablets and laptops**. Thanks to the **USB-C port with Power Delivery 3.0**, the charger delivers up to **65 W of power**, adapting the energy to the charging requirements of the connected compatible device, thereby also allowing it to power devices that require greater charging power such as laptops and notebooks, as well as iPhones and Android smartphones. It is the ideal solution for people looking for a **single charger for multiple devices**, perfect for keeping all your compatible devices charged with a single accessory, whether you are at home, in the office or on the go.

IMPRESSIVE POWER, SMALL SIZE

The **mini wall charger** uses gallium nitride (GaN) semiconductors. This material is used to create chargers that are more efficient than traditional models that use other materials such as silicon. GaN semiconductors allow us to **reduce the size of the charger while maintaining impressive performance** and improving heat management. The result is a **compact, light and powerful charger (just 58 x 35.4 mm)**, which takes up little space and is therefore ideal to take with you even when you are away from home, in your rucksack, bag or in your hand luggage.

SMART CHARGING WITH POWER DELIVERY 3.0 AND PPS

The charger uses **Power Delivery 3.0** technology, which automatically regulates the power delivered, in addition to **PPS (Programmable Power Supply)**, a system that precisely adapts the voltage and current to even the smallest variations, according to the needs of the connected device. This system therefore helps to ensure super-efficient charging, perfectly adapted to the needs of your compatible connected device, protecting the battery and avoiding overheating.

KEY FEATURES

- 65 W USB-C charger
- GaN semiconductors: more efficient and compact
- Power Delivery 3.0: regulates the power delivered
- Programmable Power Supply: adapts voltage to even the smallest variations
- Ideal for laptops, smartphones and tablets
- Super-compact design

INCLUDES

- 1 mini wall charger

65 W USB-C GaN wall charger with Power Delivery 3.0 and Programmable Power Supply
SKU: TETRGAN1C65WW

Technical data

SKU: TETRGAN1C65WW

Net Depth: 9.5000 cm

Net Width: 3.5000 cm

Net Height: 3.5000 cm

Weight: 30 g

Output power: 65W

Maximum output power: 65 W

EAN: 8018417535055

GPSR: The product must not be used by children or by people unable to understand the potential risks., Item subject to WEEE Directive 2012/19/EU, Item subject to CE marking, The device is protected by double insulation, an earthed connection is not permitted, Packaging of the item subject to the "Green Dot" recycling system, Use the product indoors and in a sheltered environment, The item packaging is recyclable, Item subject to UKCA marking

Color: white

Input: 100-240 V A.C. 50/60 Hz - 1.5 A

Output: 5V D.C. 3A / 9V D.C. 3A /12V D.C. 3A/15V D.C. 3A /20V D.C.

3,25A (PD 65W)

: 85044060

Connector: 1xUSB-C

Plug type: EU

Technology: Power Delivery (PD), Programmable Power Supply

Charging type: Power Delivery

Input voltage: 100 - 240 Vac / 50-60 Hz
