

Ultra-slim 65 Watt GaN charger with two USB-C Power Delivery ports, European plug

SKU: TETRAN2C70SLIM

The extra slim travel charger that can charge up to 2 devices simultaneously

Slim and compact: also ideal for travelling

The 65 Watt charger is the perfect accessory: fast and ultra-compact. This charger is made with gallium nitride semiconductors. Thanks to this feature, the charger is small but very powerful. It is only 1 centimetre thick, so it can be plugged into the narrowest of places and takes up very little space. This way, you can put it in a handbag or backpack very easily when you go on holiday or on a trip lasting only a few days.

One charger for all your devices, even your laptop

Charge devices with up to 65 watts of power, charging tablets and smartphones in no time. It can deliver large amounts of power in a totally safe manner thanks to Power Delivery (PD) technology: no overheating or short circuits to the charging devices. If you own a laptop or MacBook with USB-C charging, this is the right charger to power it up.

Charges 2 devices simultaneously

It has two USB-C ports, so you can charge 2 devices at the same time. You can connect lots of devices if you have a USB-C cable: speakers, wireless headsets, e-readers, smartwatches. By using both ports you get 65 Watts of charging which is divided between the two ports (45 Watts + 20 Watts), ensuring fast charging at all times.

European socket

It is compatible with power sockets in many countries around the world: take it with you in total peace of mind.

What makes it stand out:

- Ultra thin: 1 centimetre thick
- GaN: small and powerful
- Maximum power: 65 Watts
- 2 USB-C ports
- Power Delivery (PD) technology: fast and secure charging
- European plug
- Suitable for charging USB-C enabled laptops and MacBooks
