140W GaN Charger with TFT Colour Display
SKU: TETRGANTFT140WK

The charger that tells you everything: power, temperature and performance, always under control.

Recharge everything, all at once

The new 140W GaN charger is the perfect companion for people looking for efficiency, versatility and an extra dash of technology. With **a total of four ports** – three USB-C and one USB-A – it can simultaneously power your laptop, phone, tablet and even a power bank. Whether you're in the office, travelling, or just at home, all you need is one device to manage all your energy.

A display that tells you everything

Unlike traditional chargers, this model shows you exactly **what's happening**.
The **TFT colour screen** enables you to see:

- How much power is coming out of each port
- The total amount of energy delivered
- The internal temperature of the charger, with visual indications such as 'Excellent' when everything is under control

It's all easily managed with an **interactive central button**, which allows you to navigate through information effortlessly. **By holding it down**, the display **will automatically rotate 90°**, allowing you to **always keep the screen perfectly readable**, no matter the orientation of the charger.

GaN Technology: fast, secure, tailor-made

The three USB-C ports are compatible with standard **GaN**, an extremely efficient system for intelligent charging of devices. In practice, the gallium nitride semiconductors in the charger rapidly provide all the power the device needs while remaining very compact.
The result? You can also recharge a **MacBook** or other high-performance notebook without stressing the battery, and with no long waiting times.

USB-A Port with Adaptive Fast Charge

Not everyone uses USB-C devices, and SBS knows that. That's why a **USB-A port with Adaptive Fast Charge technology**: automatically adapts to the connected device to give you the fastest and safest charging possible. Perfect for Android smartphones, accessories and devices that don't support USB-C

Total peace of mind with thermal monitoring

Safety is not optional. The charger constantly monitors the **internal temperature** and displays it on the screen in real time. If all goes well, you will see it written clearly.

Why choose this SBS charger?

- Charges **up to 4 devices at once**
- 3 **GaN USB-C ports**: intelligent power up to 140W
- 1 **USB-A Adaptive Fast Charge port**: speed even for devices that don't support USB-C
- **TFT colour display** with all the information you need
- **Interactive control** via dedicated button
- **Live monitoring** of power and temperature
- **Integrated thermal protection**
- Compact, elegant, designed for people who work, travel and on the move
