70W USB-C smart charger with TFT display and Power Control 2.0

SKU: TETRGANTFT70WK

Smart technology to optimise every charge

SMART DISPLAY WITH REAL-TIME DATA

The charger is equipped with an **advanced digital display** which shows the power output, ports in use and charging status. All the information is clear and instant, so you can monitor your devices as they charge. Tap the **touch button** to change the screen. **By holding it down**, the display **will automatically rotate 90°**, allowing you to **always keep the screen perfectly readable**, no matter the orientation of the charger.

POWER CONTROL 2.0: SMART CHARGING

Power Control 2.0 technology is the heart of this charger: **it constantly scans the connected devices** and automatically adjusts the power distribution. You will therefore always get the fastest possible charge while protecting your battery and circuits. When a laptop is connected, for example, it guarantees up to **70 W of stable power via USB-C**; if you add a smartphone and an accessory, it is able to intelligently redistribute power to safely power every device.

CHARGE MULTIPLE DEVICES WITHOUT COMPROMISE

The charger is equipped with **two USB-C ports** and **a USB-A port**, allowing you to charge up to **three devices simultaneously**. Thanks to its optimised combinations, you can always have power for your laptop, smartphone, tablet, and headphones.

KEY FEATURES

- smart power control 2.0
- advanced rotating display for real-time monitoring of temperature, delivered power, and ports in use.
- 70 W Power Delivery
- charges laptops and MacBooks
- 22.5 W USB-A fast charging
- charges up to 3 devices

INCLUDES

- 1x 70 W smart charger
- 1x user manual
