Holder for car windscreen or dashboard with LockPro locking system

SKU: TEURLONGARM

The adjustable car holder with suction cup: maximum stability and safety

The patented LockPro system secures your smartphone in the car in total safety

This **car holder** is equipped with the **LockPro locking system**, i.e. a mechanism that attaches the smartphone to compatible holders in a completely secure and stable manner. First, attach the included **adapter sticker** to your phone. Make sure that the surface to which the adapter is applied is smooth and clean, wait 15 minutes after application and make sure the adhesive sticks firmly. Next, press it against the appropriate slot in the holder and rotate it until you hear a click: your smartphone is now ultra-stable. To release it, all you have to do is press and rotate the adapter again. All this can be done comfortably **with just one hand**!

Adjustable and swivelling

You can position your device at will. The stand, in fact, swivels and tilts to allow you also to view **the screen horizontally** and at the degree of inclination that is most comfortable for you. The practical **arm** can also be raised and lowered to give you the best view. Easily follow GPS directions.

It can be affixed to the dashboard or windscreen thanks to the suction cup

The LockPro holder is equipped with a special suction cup for mounting on the windscreen or dashboard. In this way, you have a wide choice of positioning even on large vehicles such as **trucks or motorhomes**.

Key features:
