

Winter hat with integrated wireless headphones

SKU: CMWINTFURBTP

The bobble hat to listen to your music wirelessly anywhere

WINTER HAT WITH INTEGRATED HEADPHONES: MUSIC TO WARM YOU UP

The **winter hat with integrated headphones** is the ideal accessory to keep your music on you in the winter outdoors. This hat not only keeps you warm but also allows you to **listen to music and make calls** for up to **4 hours wirelessly**. Turn on the Bluetooth function on your device and look for "SAILOR CAP" in the list of devices found; select it and start listening to your favourite songs right away. The **operating range of 10 metres** means that it even works away from the connected device, with a constantly stable signal. In rain or snow, you can keep your phone in your backpack or pocket with no connection problems. **You can hand wash it no problem**, but before doing so, remove the headphones through the opening on the inside.

MANAGE MUSIC AND CALLS DIRECTLY FROM YOUR HAT

On the turn-up you'll find a smooth material insert covering **3 buttons** designed for answering/ending calls, redialling the last number, playing/pausing music, changing tracks, and turning the headphones on/off.

CHARGE THE HEADPHONES EASILY WITH THE CABLE PROVIDED

When they run out of power, simply connect them to a mains charger or power bank with the **USB-Micro-USB cable provided**. After **2 hours**, they will be ready for use again.

SOFT, ON-TREND, GREAT FIT

The **ribbed design** and **soft material** not only make this hat very comfortable but also suitable for any outfit. The bobble and turn-up also add a stylish touch. Show your passion for music in style.
