

Ragtime wireless earphones

SKU: TEJZEARRAGTIMEBTK

V4.2 wireless earphones, Dual Driver, with metal finish, multipoint technology, silicon earbuds and integrated microphone

THE SOUND OF THE NEW ORLEANS

Capturing the variety of sounds and nuances of music is a necessity for every music lover. The **Ragtime wireless earphones** are the perfect solution for enjoying your playlist with unparalleled audio quality. Dive into the unique atmosphere of the News Orleans of the early 1900s.

MUSICAL PLEASURE

The Ragtime earphones are characterised by an excellent sound clarity thanks to the **Dual Driver technology**. Each earpiece has two drivers for frequency management: this means the sound is clearer and purer. Unlike accessories with a single driver, distortion is reduced considerably, thus guaranteeing rich and full acoustics.

In addition to enveloping auditory sensations, Ragtime boasts an extremely comfortable design. Soft silicone earbuds offer great adaptability: the pack contains **three pairs of sizes** (S, M, L) to ensure perfect grip inside the ear.

NOT JUST MELODIES

These wireless earphones are perfect for listening to music, but also for answering calls from friends or colleagues. The **integrated microphone** and **multi-function keys** positioned on the practical controller allow you to manage music and incoming calls.

Equipped with **multipoint technology**, you can pair two devices at a time without repeatedly connecting and disconnecting the various devices.

NEVER STOP

Once the Ragtime earphones run out of power, you can charge them through the **Micro USB input** located on the controller. The USB - Micro USB charging cable is included in the package.

FEATURES:

- Wireless V4.2
