

Winter hat with integrated wireless headphones

SKU: CMWINTSAILBTB

The long beanie to listen to your music wirelessly anywhere

WEAR YOUR MUSIC: THE HAT HAS INTEGRATED HEADPHONES

The **winter hat with integrated headphones** is the ideal accessory to keep your music on you in the winter outdoors. This hat not only keeps you warm but also allows you to **listen to music and make calls** for up to **4 hours wirelessly**. Turn on the Bluetooth function on your device and look for "SAILOR CAP" in the list of devices found; select it and start listening to your favourite songs right away. The **operating range of 10 metres** means that it even works away from the connected device, with a constantly stable signal. Put your smartphone in your pocket or backpack while walking: you'll have no connection problems. **You can hand wash it no problem**, but before doing so, remove the headphones through the opening on the inside.

MANAGE MUSIC AND CALLS DIRECTLY FROM YOUR HAT

On the rim of the hat you'll find a smooth material insert covering **3 buttons** designed for answering/ending calls, redialling the last number, playing/pausing music, changing tracks, and turning the headphones on/off.

CHARGE THE HEADPHONES EASILY WITH THE CABLE PROVIDED

When they run out of power, simply connect them to a power bank or mains charger with the **USB-Micro-USB cable provided**. After **2 hours**, they will be ready to use again.

SOFT, ON-TREND, VERSATILE

The **soft material** makes this hat very comfortable and nice to the touch. The **braided knit long beanie design** also makes it stylish and versatile. Pair it with your favourite outfits and show off your passion for music.
