

Power Delivery 18 Watt compact Powerbank

SKU: TEBB10000MIPDK

10,000 mAh Power Delivery 18 Watt charger with 1 Type-C input / output, 1 USB 15 Watt output, 1 USB 2.1A Intelligent Charge output

COMPACT PERFORMANCE

Designed to be compact and to guarantee excellent performance. The 10,000 mAh Power Delivery **Powerbank** charges your devices quickly and without overheating. This **multi-port charger** is essential for charging many types of devices.

Thanks to its 10,000 mAh capacity the powerbank can charge a smartphone up to 4 times. *

THE TYPE-C PORT: WHAT IS IT FOR?

The powerbank has a **Type-C Power Delivery** output. This protocol guarantees an 18 watt power supply: if your device is compatible with this technology, its charge level will be around **70% in just 30 minutes**.

In addition to acting as an output, **this port allows you to charge the powerbank**. Just connect a cable with a Type-C connector to an energy source to charge the powerbank. Thanks to the **LCD display**, you can always know and control the charge level.

RAPID OR CONTEMPORANEOUS CHARGING

This charger features **2 USB ports** to simultaneously charge devices such as Android or iPhone smartphones, eBook readers, headphones, speakers or wireless earphones.

Used individually, these USB outputs allow you to charge your devices very quickly: the green port has **Adaptive Fast Charge** technology, a protocol that allows the transfer of up to **15 Watts of power**. If your device is compatible with this technology, its charge level will be around **80% in just 30 minutes**.

The light blue port has **Intelligent Charge** technology. Thanks to this system, the powerbank can recognize the device's charge requirements and regulate the supply of power. No overloading or overheating during rapid charging: in 30 minutes, your smartphone's charge level will be around **50%**.

When 2 or 3 ports are being used simultaneously, the devices connected to the powerbank will not have fast charging.

HOW TO CHARGE THE POWERBANK

Use the Micro USB or Type-C input to charge the powerbank when it is empty.

Thanks to its **Dual Charge** technology, you can charge the powerbank while it is charging one or more devices.

CHARACTERISTICS:

- Capacity: 10000 mAh
- Dual Charge
- Intelligent Charge
- Power Delivery
- Adaptive Fast Charge
- Input: Type-C
- Output: USB Intelligent Charge, USB Adaptive Fast Charge, Type-C
- Smartphone charge level after 30 minutes using the Type-C PD Charge output: 70% **
- Smartphone charge level after 30 minutes using USB output with Adaptive Fast Charge: 80% **
- 4 status LEDs
- USB charging cable - micro USB included

* The figures shown refer to a smartphone with a 2500 mah battery with 20% residual battery and on stand-by; charging performance drops significantly when the is phone on and in use. The number of charges may vary based on the phone model being charged.

** Charging times are indicative and depend on the battery capacity of the device being charged.

Power Delivery 18 Watt compact Powerbank
SKU: TEBB10000MIPDK

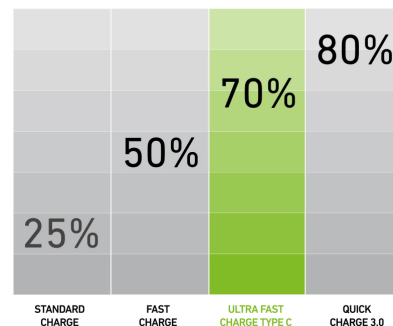

Technical data

Recharging cable: USB/Micro-USB
Input: PD 18 W - Type C
Output: 5V/3A - 9V/2A - 12V/1.5A - 20V/0.75A, PD 18 W - Type C
Battery: Li-ion
Technology: Dual Charge, Intelligent Charge, Power Delivery 18 W
Included accessories: Charging cable
Color: black
EAN: 8018417292378
SKU: TEBB10000MIPDK
Weight: 196 g

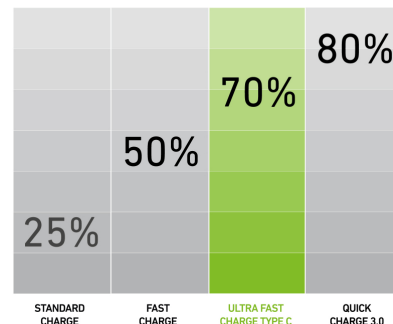

Logistics data

Depth Pack: 40 mm
Width Pack: 90 mm
Depth Inner: 210 mm
