

Wireless Reflex Set

SKU: TETRIPODBTSET

A reflex holder for smartphones with a tripod. For a safe and perfect grip when taking pictures, even one-handed

LIKE A CAMERA

The SBS **Wireless Reflex Set** is equipped with a **practical button** on the upper part of the cover **like a camera**. This way you don't have to touch your screen every time you want to take a picture.

PERFECT GRIP

With the Wireless Reflex Set, you can turn your smartphone into a reflex camera. Taking pictures and selfies during a trip has never been easier. Thanks to this **practical holder**, you will always have a **perfect grip** on your smartphone no matter what the shot. Easily take photos of places and monuments without worrying about your smartphone slipping or taking blurry unfocused shots.

SHOOT EVEN FROM A DISTANCE

The button can be detached to become a small **wireless remote control** that's perfect for taking photos from up to **10 meters away**. This allows you to take full advantage of the **screw-turn tripod**. It saves you time when positioning your smartphone and you'll always get a steady shot, even from a distance. In addition, its **rubber feet** keep the tripod from slipping on wet surfaces.

READILY PORTABLE

Measuring only 20cm, you can easily carry this tripod along with you at all times in your handbag or backpack .

DISTINCTIVE FEATURES:

- the button on the handle lets you take pictures just like a camera
- the high quality plastic holder affords an optimal grip on your smartphone
- the button on it can be detached to become a wireless remote control with a range of up to 10m
- the screw-turn tripod with rubber feet provides excellent stability on any flat surface
