

## 5000 mAh solar power bank with wireless charging

SKU: TEBB5000MAGSK

### The powerbank that recharges your smartphone, also using solar energy

#### Take advantage of sunlight or charge in standard mode

Choose how to charge the power bank: either by **sunlight** or **electricity**. The power bank is equipped with a **solar panel** on the back, capable of producing enough energy to recharge your device's battery up to 50%. The **status LEDs** are coloured green **to notify you of the correct functioning and charge level of this mode**. Alternatively, you can choose the **standard mode** by connecting a **USB-C connector cable (not included)** inside the **US-C 10 Watt input port**. You can also use the **Micro-USB port** to power the power bank using the **included USB-A - Micro-USB cable**.

#### Wireless charging also compatible with MagSafe charging

The solar power bank can **recharge** your **Android and Apple** devices without cables. Bring your device close to the base of the power bank and the 5 Watt recharge will start immediately. If you have an iPhone with MagSafe charging, the power bank will **magnetically attach** to the body of the phone.

#### The USB-A port allows for fast and safe charging

If you don't have a device with wireless charging, no problem: the power bank is equipped with one **USB-A port** for standard charging via cable. It will power your device at a power of 10 Watts with **maximum security** thanks to **Intelligent Charge (IC) technology**: overheating and short circuits are a thing of the past.

#### Compact and with integrated light: perfect for your outdoor activities

Its **compact size** allows this power bank to be easily stored in a backpack or handbag. There **integrated light** also makes it perfect for nighttime activities or camping.

**Key features:**

- 5,000mAh (milliampere-hour) battery capacity
- solar panel on the back to power the power bank through sunlight
- Wireless charging for Android and Apple: magnetically attaches to iPhones with MagSafe charging
- USB-A port with Intelligent Charge (IC) technology
- USB-C input port for charging the power bank
- Micro-USB input port for charging the power bank
- 4 status LEDs to accurately display the charge level of the power bank
- compact and lightweight design
- compatible with Android smartphones, iPhone, LG, Nokia, Motorola and many others, Notebooks and Macbooks
- rapid charging type
- can be taken on flights
- colour: black

**Includes:**

- 1 charging cable with USB-A to Micro-USB connector
- 1 x instruction manual

5000 mAh solar power bank with wireless charging  
SKU: TEBB5000MAGSK

## Technical data

Recharging cable: USB - Micro USB Cable  
LED: Status  
Input: 5V D.C. - 2A  
Output: 5V - 2A  
Battery: Lithium polymer battery  
Technology: Intelligent Charge, Wireless  
Other features: Wireless Charge Compatible  
Wireless Output: 5W  
Included accessories: USB/Micro USB cable  
Color: black  
EAN: 8018417448546  
SKU: TEBB5000MAGSK  
Weight: 100 g  
Battery capacity: 5000 mAh

## Logistics data

Depth Pack: 30 mm  
Width Pack: 100 mm  
Depth Inner: 120 mm
