

## Gravity mount with wireless charger

SKU: TESUPPGRAVWIR10W

### Universal mount with wireless charger equipped with easy closure system, dashboard air vent clip and Automatic Detection System

#### THE TWO SIDES OF GRAVITY

One product, two functions. **Gravity hands-free mount with wireless charger** can be used to secure your smartphone in the car and also charge it wirelessly. An incredible accessory, practical technology at its best.

#### AS A DASHBOARD MOUNT

Gravity is equipped with a practical **clip** that fixes the mount to the air vents on your car dashboard. The unique feature of this product is its **closure mechanism**. Simply place your smartphone on the lower arm of the support and gravity will do the rest: the weight of the phone causes the clamp to close instantly, preventing accidental falls or slips.

#### AS A WIRELESS CHARGER

This mount doubles as a wireless charging base. To benefit from this function, you will need to use the Micro USB cable that comes in the pack. Connect the Micro USB end to Gravity, and plug the USB end into the dedicated slot in your car's charger. When it is connected, the mount will transfer energy directly to your phone, without using wires. Gravity is designed for all mobile devices that support **Qi technology**: thanks to this wireless power feature, you can recharge your smartphone battery at over 70% efficiency.

#### FAST AND SAFE

To take advantage of the quick charge function and get a smartphone charge level of 50% in 30 minutes, you need to connect Gravity to a **Quick Charge** charger. QC devices can considerably reduce the time needed for charging.

**ADS (Automatic Detection System) technology** allows the charger to recognise the power needs of the device and guarantee that the correct level of power is used to avoid overheating. Thanks to this innovative system, the base can recharge smartphones such as the iPhone X, 8 and 8 Plus and others that require 7.5W of charging power.

#### **TRAVEL COMPANION**

Gravity is the right product when you need an innovative mount with multiple functions. Choose it as the ideal travel companion that **never leaves your battery drained**.

#### **FEATURES:**

- Mount with rapid wireless charger
- ADS (Automatic Detection System) technology
- Max power: 10W
- Automatic clamp closure
- Dashboard air vent clip
- Transmission distance: 3-8 mm
- USB 2.0 charging cable - Micro USB included

Gravity mount with wireless charger  
SKU: TESUPPGRAVWIR10W

## Technical data

Closure: Automatic  
Coupling mode: Clip for air vent  
Transmission distance: 3-8 mm  
Input: DC5V/2A 9V/1.7A  
Output: DC5V/1A 9V/1.1A  
Suited for: Smartphones with Qi Technology  
Technology: ADS (Automatic Detection System)  
Charging type: Fast charge with Quick Charge charger  
Included accessories: USB/Micro USB cable  
EAN: 8018417254178  
SKU: TESUPPGRAVWIR10W  
Weight: 90 g  
Maximum output power: 10 WATT
